WHERE IT GOES

This part in colour, its neighbours in grey

HOW TO MAKE IT AND HOW IT FITS

- Spigot 25 x 25 x 1.6 square tube, 230 long.
- Post of the same tube, 145 long, welded on top of the spigot, flush with its outer end.
- Saddle plate 60 x 130 x 4 on the post top, centred.
- V of 3 mm plate bent to 90 deg, 60 wide inside at the top, welded along the plate centre line.
- Drill 9 at 52 either side of the V; weld M8 nuts underneath.
- Check: spigot slides into a stub offcut by hand, no rock.

Side arm (4)
