WHERE IT GOES  
This part in colour, its neighbours in grey

HOW TO MAKE IT AND HOW IT FITS

Two end caps: 50 webbing sewn into closed sleeves  
40 deep, a 25 cam strap round each mouth  
to cinch it on poles of 40 to 80.  
Two legs of 25 webbing, about 420 long, from the  
cap ends to one 40 steel ring.  
Tail of 25 webbing, 600 long, ring to a cam buckle  
that clips to the rear bearer's hip belt.  
Box-and-cross stitch every joint, UV thread.  
Check: hang 100 kg from the ring for 1 min.
